📍 Mumbai, Maharashtra

## Professional Summary

**Full Stack Developer** specializing in Next.js, React.js, Node.js, Express.js, MongoDB, and MySQL. Experienced in building secure, scalable, and responsive web applications with authentication, RESTful APIs, and database design. Proficient in deploying applications on Vercel, Render, and Railway, including custom domain configuration and production setup. Passionate about building clean, production-ready software and continuously learning modern technologies.

## Technical Skills

**Frontend** : Next.js, React.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Framer Motion

**Backend** : Node.js, Express.js, RESTful APIs, JWT Authentication, Email OTP Verification, Nodemailer, Resend, Middleware

**Databases** : MongoDB, MongoDB Atlas, MySQL

**Deployment & Tools** : Git, GitHub, Postman, Vercel, Render, Railway, Google Search Console, Figma, VS Code, Cloudinary

**Core Concepts** : Authentication, Authorization, Role-Based Access Control (RBAC), Cookie-Based Authentication, Password Reset Flow, CRUD Operations, API Integration, Pagination, Search & Filtering, Database Design, Responsive Design

## Projects

### 1. DevReview – Full Stack Developer Community Platform

**Tech Stack:** Next.js, React.js, Node.js, Express.js, MongoDB Atlas, JWT, Tailwind CSS, Resend

**GitHub** – <https://github.com/Hamidrza0008/DevReiview>

**Live** – <https://dev-reiview.vercel.app>

- Built a production-ready full-stack developer community platform where developers can showcase **projects**, explore **community projects**, write **reviews**, **like** projects, **follow other developers**, and build their professional network.
- Developed secure authentication using **JWT**, **HTTP-only Cookies**, **Email OTP Verification (Resend)**, **Continue with Google (OAuth 2.0)**, **Forgot Password**, **Password Reset**, **Protected Routes**, and **Role-Based Access Control (RBAC)**.
- Implemented complete Project **CRUD** with ownership-based **authorization**, ensuring only project **owners** can **create**, **update**, or **delete** their **projects**.
- Built complete **Explore Projects**, **Project Details**, **User Profiles**, **Review System**, **Real-time Like System**, and **Follow/Following/Followers functionality** with seamless **frontend-backend** integration.
- Successfully deployed the **Frontend on Vercel**, **Backend on Render**, and **MongoDB Atlas** as the cloud database with secure environment configuration, **CORS**, and **production-ready deployment**.

## 2. Lotus Cakes – Full Stack E-Commerce Platform

**Tech Stack:** Next.js, React.js, MySQL, JWT, Tailwind CSS

**GitHub:** <https://github.com/Hamidrza0008/Lotus-Cakes>

**Live Demo:** <https://lotuscakesin.vercel.app/>

- Developed a **production-ready full-stack e-commerce platform** with a modern and responsive shopping experience.
- Implemented **JWT Authentication, Email OTP Verification, Password Reset, Protected Routes, and Role-Based Access Control (RBAC)** for secure user and admin access.
- Built a comprehensive **Admin Dashboard** with **Product, Category, Order, Customer, Inventory, and Sales Management**, including full CRUD operations.
- Developed end-to-end e-commerce features including **product browsing, search, category filtering, cart, wishlist, checkout, and order tracking**.
- Designed and integrated **RESTful APIs** with MySQL for authentication, product management, orders, cart, wishlist, and admin operations.
- **Deployed the frontend on Vercel and the backend with MySQL on Railway**, configuring production environments, secure environment variables, and seamless frontend-backend integration.

## 3. Taskify– Full Stack Productivity & Task Management Platform

**Tech Stack:** Next.js, React.js, Node.js, MySQL, JWT, Tailwind CSS

**GitHub:** <https://github.com/Hamidrza0008/Taskify>

**Live Demo:** <https://taskro.vercel.app/>

- Developed a **full-stack task management platform** with secure **JWT Authentication**, protected routes, and multi-user task isolation.
- Built complete **Task CRUD**, smart filtering, date-wise organization, and **Daily Performance Score** tracking for productivity insights.
- Designed and integrated **RESTful APIs** with MySQL for authentication, task management, and user-specific data handling.
- **Deployed the frontend on Vercel and the backend with MySQL on Railway**, ensuring secure environment configuration and production-ready deployment.

## 4. Elite E-Commerce Platform (Frontend)

**Tech Stack:** React.js, Tailwind CSS, Redux Toolkit, React Router

**GitHub:** <https://github.com/Hamidrza0008/E-Commerce>

**Live Demo:** <https://hamidrza0008.github.io/E-Commerce/>

- Developed a modern **frontend e-commerce application** with a responsive and premium user interface using **React.js** and **Tailwind CSS**.
- Implemented **client-side authentication (Login/Register/Logout), Cart, Wishlist**, protected routes, and state management using **Redux Toolkit**.

---

# Education

**B.Tech** in Computer Science Engineering (**Final Year**)

Chhatrapati Shivaji Maharaj University ( 2023 – Present )

CBSE Class XII – 70% & Class X – 72%
